-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 2876

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-7 are rejected under 35 U.S.C. 102(e) as being anticipated by Meksavan et al 6,581,838.

Meksavan discloses an optical scanner for scanning bar codes that includes a housing with upper and lower portions 554 and 552 and an opening 560. There is an optical module housing 300 with top portion 302 and bottom portion 304 that is mounted in the opening of the scanner housing. There is disclosed a light pathway 364 with a semi-circular end for seating a photo-emitter. The photo-emitter may be an IR LED. This IR LED is turned on to facilitate the user reading a subject code by augmenting the IR light impinging upon the subject code. There is disclosed a window 750 in front of the opening and a circuit card 900 sandwiched between the housing portions 554 and 552. The scanner may be turned on and off (col 2 lines 45+).

3. Applicant's arguments filed May 24, 2005 have been fully considered but they are not persuasive. Applicant amends the independent claim to include that there is an auxiliary illumination device for a user to read the code pattern in an insufficiently lighting environment. The examiner respectfully suggest that Meksavan's IR led is in

fact an illumination source which allows the user to read the bar code of Meksavan in a situation where there is insufficient IR light radiation.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
